Three generations of pharmacists.

Two brands built to last.

Stella Health Solutions is a Canadian pharmaceutical family business spanning 170 years — stewards of Canada's most trusted home health and nutrition brands. Every product is formulated by licensed pharmacists and manufactured in Health Canada–approved facilities.

DR. CHASE • SINCE 1856

1856 ● Dr. Alvin Wood Chase begins formulating
Heritage family remedies published across North America. KOLIK Gripe Water formula developed — trusted by Canadian families in every generation since.

1860s ● Minard's Liniment — King of Pain Relief
Dr. Levi Minard, Hants County, Nova Scotia. A topical remedy for Maritime fishermen and loggers that has outlasted every competitor it has ever faced.

1961 ● Stella Pharmaceutical licenses Dr. Chase
Heritage formulas manufactured to pharmaceutical standards, each holding a Natural Product Number (NPN) issued by Health Canada. Canadian ownership of a Canadian institution.

2005 ● National retail expansion
Products enter Shoppers Drug Mart, Loblaws, Rexall, and Walmart Canada — coast to coast in every major pharmacy channel.

Today ● 10 products holding a Natural Product Number (NPN) issued by Health Canada
KOLIK, Koff & Kold, Sweet Dreams, X-ZEMA, Minard's, and Snap — Canada's most complete family health ecosystem.

NUTRIBAR • SINCE 1979

1979 ● Nutribar founded by the Stella pharmacy family
Pharmaceutical compounding standards applied to nutrition bars. Not glorified candy — complete meal replacement that works. 45+ years of Canadian family trust.

2000s ● National pharmacy and grocery expansion
Shoppers Drug Mart, Rexall, Loblaws, and Walmart Canada. The pharmacist-formulated bar enters every major channel where Canadians buy health products.

2024 ● High Protein line with CraveX formula
17–18g protein, pharmaceutical-grade amino profile, GLP-1 compatible nutrition. Responding to the fastest-growing clinical trend in Canadian pharmacy.

2026 ● Good Protein with BCAAs — four new SKUs
Entering the advanced-recovery and serious-athlete segment. BCAA-enriched, Made in Canada. Q3 2026 launch.

"We don't make health products because it's a business. We make them because three generations of our family believe Canadians deserve pharmaceutical-grade quality — from the first remedy their baby takes to the nutrition bar they reach for at 3pm."

BRAND LINE · SNAP SKINCARE

Born in the Pharmacy. Not the Algorithm.

100% natural volcanic pumice exfoliants for adult skin. No microbeads, no synthetic fillers. The anti-trend choice for consumers who want clean ingredients and proven results — formulated by the same family of pharmacists for over 40 years.

- **Snap Regular Microfine Exfoliant · 180 mL**

Whole-body microfine volcanic pumice. pH balanced. All skin types. Cosmetic — no NPN required.

- **Snap Gentle Facial Exfoliant · 180 mL**

Ultra-fine volcanic pumice for delicate facial skin. Dermatologist tested. No plastic microbeads.

RETAILER SPECS

Format: 180 mL — both SKUs

Regulatory: Cosmetic — no NPN

MSRP: \$9.99 – \$12.99

Units/Case: 12 per case

Section: Skincare / Body Care

Ingredients: Volcanic pumice, water, glycerin — no microbeads

ICP: Adults 35–65 seeking clean-ingredient exfoliation. High pharmacy loyalty — repeat buyers who don't shop mass skincare. Recommends to friends. Low return rate.

BRAND LINE · MINARD'S LINIMENT

Canada's King of Pain Relief. Since 1860.

Maritime heritage topical warming liniment for muscles, joints, arthritis, and stiffness. Over 160 years of proven relief — no systemic side effects, no prescription required. The trusted choice for working Canadians from coast to coast.

- **Minard's Pain Relief Liniment · 145 mL**

Camphor 5.45% · Turpentine 10.5% · NPN 02238185. Topical warming relief for muscle pain, joint stiffness, arthritis, and bruises.

160^{yr} From Maritime fishermen to modern athletes — Minard's is the remedy competitors haven't found a way to replace.

RETAILER SPECS

SKU: Minard's Pain Relief Liniment

Active: Camphor 5.45% · Turpentine 10.5%

Section: Topical Analgesics / OTC Pain

Size: 145 mL · NPN 02238185

Units/Case: 12 per case

MSRP: \$8.99 – \$11.99

ICP: Working adults 45–70 with chronic joint pain, arthritis, and muscle stiffness. Strong Maritime and rural penetration. Repeat buyers — high margin per linear foot. No systemic side effects = pharmacist-recommended first line.

We drive consumers to your *shelf*.

30+ active ad variants across Meta, TikTok, and Google — driving brand-aware consumers to pharmacy shelves nationwide. Geo-targeted to retail banner footprints across Canada.

NUTRIBAR COMPLETE · 5 FLAVOURS · PHARMACIST-FORMULATED SINCE 1979

Good Protein with BCAAs.

The pharmacist answer to GLP-1 muscle loss.

► LAUNCHING Q3 2026 — PRE-ORDERS NOW OPEN

20g pharmacist-formulated protein with a complete BCAA amino profile. Made in Canada. Designed for GLP-1 medication users, active adults, and anyone who needs a protein bar their prescriber will endorse by name.

Chocolate Chip

20g Protein **BCAAs**

240 cal

Clean, classic chocolate. Highest protein in the GP line. Entry-level flavour — broadest trial potential. Recommended by HCPs as first introduction.

Dark Chocolatey Sea Salt

20g Protein **BCAAs**

230 cal

Sweet-salt contrast. Premium positioning appeals to 30–55 active adults. Strong repeat-buy loyalty in performance buyer segment.

Chocolatey Peanut Butter

20g Protein **BCAAs**

250 cal

Richest flavour in the line. Deepest repeat-buyer loyalty in tasting data. PB buyers are among the most brand-loyal in pharmacy nutrition.

Cookies & Cream

20g Protein **BCAAs**

240 cal

Dessert-register. Strongest trial-to-repeat conversion. Highest incremental basket — pulls non-traditional protein buyers into the category.

WHO'S BUYING

GLP-1 Patients — Ozempic, Wegovy, Mounjaro users needing protein to prevent muscle loss. Pharmacist-directed purchase. High AOV, strong clinical alignment.

Active Adults 40–65 — Strength maintenance, recovery, daily protein gap. Pre-workout and post-workout occasion. Loyal repeat buyer profile.

Post-Surgical Recovery — Protein needs post-procedure. HCP-recommended. Clean macros, no artificial sweeteners — hospital and clinic-adjacent channel.

Busy Professionals 30–50 — Meal replacement for high-protein lunch. Pharmacy convenience channel. Pharmacist-trust as purchase trigger.

WHY CARRY GOOD PROTEIN

Unique Positioning — The only 20g protein bar with pharmacist heritage. No mass brand can compete on credibility in a pharmacy setting.

HCP Pull-Through — 200+ HCPs already directing patients to Nutribar by name. Good Protein converts that trust into a direct shelf purchase.

Basket Lift — Protein category drives repeat visits. Buyers return 2.3× more frequently than standard snack buyers. AOV 40% above category average.

Launch Timing — Q3 2026 aligns with peak back-to-routine season. Pre-order now to lock in shelf position before national rollout.

THE GLP-1 OPPORTUNITY — WHY THIS LAUNCH IS TIMED FOR YOUR SHELF

Canada's fastest-growing prescription category creates an *unmet nutrition need on your shelf*.

400%

Growth in Canadian GLP-1 prescriptions since 2021 — Ozempic, Wegovy, Mounjaro

40%

Of weight lost on GLP-1 medications is muscle mass without adequate protein supplementation

200+

Canadian HCPs already recommending Nutribar alongside GLP-1 medication protocols

The clinical problem: GLP-1 medications dramatically reduce appetite — but patients need sufficient protein and BCAAs (leucine, isoleucine, valine) to signal muscle protein synthesis and prevent sarcopenia. **The Good Protein advantage:** 20g of pharmacist-formulated protein with a complete BCAA profile — the only bar backed by 45 years of pharmacist heritage, positioned exactly where patients already go to fill their GLP-1 prescription. **No other bar brand can tell this story from the pharmacy shelf.**

10 / 12

Every life stage. *One trusted partner.*

Stella Health Solutions gives retailers a complete, pharmacist-backed health ecosystem — the only portfolio covering infant remedies, adult pain relief, clean skincare, and pharmaceutical nutrition under one multi-generational Canadian heritage brand.

Full Lifecycle Coverage

Baby's first colic remedy through adult performance nutrition. No other single vendor covers infant, pediatric, adult topical, and nutrition categories with the same pharmacist lineage.

Pharmaceutical Credibility

168-year Dr. Chase heritage + 45-year Nutribar heritage. Health Canada licensed. Three generations of pharmacists. 200+ HCP recommendations. The trust signal competitors cannot replicate.

National Digital Support

50+ active ad variants across Meta, TikTok, and Google. Bilingual EN/FR campaigns. Retail geo-targeting that drives brand-aware consumers to your shelf — not a DTC website.

GLP-1 Category Leader

The only pharmacist-formulated bar positioned for GLP-1 support. As prescriptions climb 400%, Nutribar's shelf placement alongside the prescription becomes a clinical recommendation.

One Wholesale Partner

Dr. Chase and Nutribar ship on one PO. One account, one relationship, two complete brand families. Net 30 terms. POS materials and bilingual shelf talkers supplied.

89% Reorder Rate

Nutribar customers reorder at 89% within 6 months. Dr. Chase products are generational household staples. Both brands drive repeat basket visits.
